

GUAYUSA

TEAWOLF IS A LEADING MANUFACTURER OF EXTRACTS, DISTILLATES, & MORE...

Guayusa (gwhy-you-sa) is a super leaf found only in the Amazonian rainforest in Ecuador. Brewed like tea, guayusa offers clean, focused energy by balancing as much caffeine as coffee with twice the antioxidants of green tea. There are no tannins in the guayusa leaf, so it lacks the bitter taste associated with some green or black teas. Teawolf, in collaboration with RUNA, offers a range of commercially available, water soluble, premium guayusa extracts in both liquid and powder formats. All of our guayusa extracts are Kosher and Organic Certified.

GUAYUSA IS AVAILABLE IN THESE DELIVERY FORMS:

Liquid Products

Manufacturers of teas, energy drinks, smoothies, enhanced still and sparkling waters, ice creams and sorbets use our liquid guayusa in their manufacturing processes for both flavor and color applications.

GUY415 Guayusa Extract Fair Trade Organic
GUY480 Guayusa Distillate Fair Trade Organic

Dry Products

The dry powder format is particularly popular with customers making instant drink mixes and those making pharmaceutical preparations such as gel caps, tablets or performance enhancing products for wellness applications.

GUY495 Guayusa Extract Powdered Fair Trade Organic
